## Supervisor, Control Centre-T-BTNA-PAS-CATO-0901

### Description

## We are Bombardier

## Get on board, we can drive you further in your career

Bombardier Transportation is the number one provider of rail solutions in the world. Our business holds the number one global market position in eight of the ten markets we service. Our product portfolio includes a full range of passenger rail vehicles and we manufacture locomotives, bogies, propulsion and rail control solutions. We design, build and service some of the most intelligent and beautiful rail solutions in the world, our products are safe, healthy for people and help preserve the world's natural environment. For further information go to: [www.bombardier.com](http://www.bombardier.com)

We are looking for a **Supervisor, Control Center** for our **Toronto** facility

Bombardier provides state-of-the-art systems that enable rail vehicles to operate at increased speed and track capacity without compromising the very high safety standards. Our solutions have been delivered to 50 countries worldwide. In addition, Bombardier is developing applications that will lead to an environmentally friendly driving style, heightening our environmental contribution and provision of value based solutions to our customers.

### Your Role

You will be responsible for organizing and controlling the arrival, fueling, and dispatch of the train at Willowbrook, and as well as monitoring the arrival and dispatching of the trains from the 8 layover sites. You will organize and inform GO Transit Operations of any schedule changes, contacts the crews on the radio to assist with any equipment problems. You will monitor the radio to prevent or reduce delays by coaching or having staff dispatched to meet the train at the most appropriate location. You will coordinate equipment changes using shop staff. On weekends you are the primary contact for all staff working to assign work and monitor production.

### Your Challenges

- Organize, control arrival and dispatch at Willowbrook and out post locations;
- Monitor the radio for equipment problems, consider options, contact appropriate resources to respond to minimize or prevent delays to train cycles;
- Prepare communication packages in Maximo, C4IS, Excel, distribute as
