## Quality Assurance Technicians-T-SYS-QAT-CAKI-901

### Description

**We are Bombardier  
We set the track for your career**

Bombardier Transportation is the number one provider of rail solutions in the world. Our business holds the number one global market position in eight of the ten markets we service. Our product portfolio includes a full range of passenger rail vehicles and we manufacture locomotives, bogies, propulsion and rail control solutions. We design, build and service some of the most intelligent and beautiful rail solutions in the world, our products are safe, healthy for people and help preserve the world's natural environment. We are looking for **Quality Assurance Technicians (2 openings)** for our **Kingston, Ontario** facility

Bombardier provides state-of-the-art systems that enable rail vehicles to operate at increased speed and track capacity without compromising the very high safety standards. Our solutions have been delivered to 50 countries worldwide. In addition, Bombardier is developing applications that will lead to an environmentally friendly driving style, heightening our environmental contribution and provision of value based solutions to our customers.

The successful candidates will be responsible for all quality functions and affairs related to projects from the proposal phase through and including completion of test and commissioning. Quality is also involved with Research and Development initiatives and other miscellaneous items. These positions will be responsible for supporting projects and other functions as required by the Quality Supervisor.

### Your Role

- Planning and conducting Supplier Quality functions such as review of documents, performing audits, FAI's, Supplier Surveillances and Pre-shipment inspections with assistance from the responsible Quality Engineer.
- Perform witnessing and monitoring of testing to ensure conformance to processes and procedures. Will be both on and off-site (Kingston and client's site).
- Have responsibility to control departmental efficiency for the input and maintainance of Quality records and databases.
- Organizing and controlling department schedules for all quality staff and co-ordinating deadlines for document deliverables, travel schedules and supporting other quality staff in their absence from the office when other functions have queries.

- Assist the Quality Engineers with Quality planning of proposals and contracts with deliverables such as PQMP, I&TP, TPP & CMMI.

## Qualifications

### Your Experience and Qualifications

- Technical diploma in Electrical or Electronics will be preferred. Mechanical and Civil will also be considered.
- Between 1 and 5 years years of relevant work experience in Quality Assurance.
- Strong communication in English, written and spoken.
- Flexibility to travel internationally for periods up to a few months to support projects.

Are you a team player with excellent communication skills? Are you customer oriented, flexible and self confident? Do you recognize yourself in this description? If so, this position could be the beginning of your progressive career with us. We offer a dynamic environment with opportunities to start a career and continually grow. Apply now and join Bombardier's worldwide team!

*We thank all applicants for their interest; however, only those under consideration will be contacted. Local candidates will be preferred as no relocation support will be offered.*

*Bombardier Transportation is an Equal Opportunity Employer Dedicated to Affirmative Action and Workforce Diversity.*

**Job Quality Assurance**  
**Primary Location** CA-ON-Kingston  
**Organization** Systems  
**Schedule** Full-time  
**Shift** Day Job

**Job Posting** 24.08.2009  
**Employee Referral Bonus:** 500
